

Using CLEARED4 Complies with COVID Mandate

CLEARED4 is the most trusted cloud-based health verification platform in the industry that makes monitoring and managing covid-related safety and compliance both easy and cost effective.

Mandate + OSHA/CMS Rules

Who is required to comply with the COVID mandate?

Organizations with 100+ workers, all federal employees & contractors, and all health care facility workers.

What is required?

1. Provide proof that each worker is fully vaccinated*
2. Track & test unvaccinated workers for COVID-19 at least on a weekly basis. **Records required:**
 - Employee vaccination documentation
 - Employee COVID-19 test results and timing
 - Aggregated number of fully vaccinated employees
 - Total number of employees
3. Ensure all unvaccinated workers wear masks in workplace
4. Provide paid time for workers to get vaccinated and sick leave to recover from side effects
5. Report work-related COVID-19 hospitalization/death

When is it required to be complete?

By January 4, 2022

** 2 doses of Pfizer or Moderna, 1 dose of J&J. Full vaccination mandatory for all Federal and healthcare facility workers.*

CLEARED4 Capability

- ✓ Scalable to any size organization - currently serve over 1MM users
